PROFESSIONAL PROFILE

SE undergraduate at Sri Lanka Institute of Information Technology (SLIIT), currently in the third year (first semester), with a strong interest in software engineering. Seeking an internship to gain practical industry experience while completing my degree. A motivated and fast learner with a passion for continuously developing technical skills

PROJECTS

TransitCare – Public Transport Complaint Management System

[Technologies & Tools: ASP.NET Core Web API, React, PostgreSQL, REST API, JWT Authentication]

- Developed a full-stack public transport complaint management system for passengers and administrators
- Implemented complaint submission with route, location, date, description, and supporting image evidence
- Developed complaint tracking with Pending, Under Review, and Resolved status workflow
- Implemented role-based features for passengers and administrators, including complaint management and responses
- Created admin dashboard with complaint statistics, priorities, search, filtering, and route-based insights
- Designed a clean and responsive UI/UX for an improved passenger and admin experience

Wijayanandana Hotel & Bakery Website (Personal Project)

[Technologies & Tools: Node.js, Express.js, React, MongoDB, Tailwind CSS]

- Designed and developed a modern website for Wijayanandana Hotel & Bakery to showcase bakery products and lunch menus
- Implemented user authentication for login and registration
- Built a responsive and user-friendly interface using React and Tailwind CSS
- Integrated bakery product listings, lunch set menus, and WhatsApp-based ordering
- Developed an admin dashboard to manage products, menu items, and website content

Arduino Home Automation System (1st Year – 1st Semester)

[Technologies & Tools: Arduino, C++, Sensors (PIR), GSM Module, Bluetooth Module]

- Developed a smart home automation system using Arduino to control lights, fan, and other devices
- Integrated LDR and PIR sensors to automate lighting and detect motion
- Implemented GSM module to send alert messages when motion was detected
- Enabled remote control of devices via Bluetooth connectivity

Vehicle Rental System (2nd Year – 1st Semester)

[Technologies & Tools: Java, Database Management, OOP Concepts]

- Developed a system to manage vehicle rentals, bookings, and customer details
- Implemented rental management functionalities including availability checking and reservations
- Applied object-oriented programming principles for system design
- Improved efficiency in handling rental operations

EDUCATION

•BSc (Hons) in Information Technology –
Software Engineering(Undergraduate)

SLIIT | GPA: 3.58

General Certificate Examination –Advanced
level – Local– Science Stream (January 2024)–

Index No– 7621272.

CERTIFICATIONS

- Followed EnglishLanguage Certificate Level 3 course at Aquinas College.
- Completed Web Design for Beginners online programme – CODL,
University of Moratuwa

SKILLS

- Java
- JavaScript
- C#
- HTML
- CSS
- React
- React Native
- ASP.NET Core
- PostgreSQL
- MongoDB
- Responsive Web Design
- REST API Integration
- Object-Oriented
Programming (OOP)
- Problem-Solving
- Teamwork & Communication

EXTRA-CURRICULAR ACTIVITY

- Executive Member of Leo Club at SLIIT
- Head Prefect (2022/2023) of Rajasinghe Central College, Ruwanwella
- President of Photography Association (2019/2023)
- Member of IT Association (2018/2019)
- A member of school cricket team
